

Enhance your cookware... ...with new spatter coatings from Whitford!

Burnished Brass

Marine Blue

Sun-washed Sand

Cherry Wood

Dark Serpentine

Field Stone

Note: Blown up swatches of each pan shown here.

The look of these pans is contingent upon the colors chosen and the coating applicator. They are simply a demonstration of the possibilities.

Whitford

Where good ideas come to the surface...and have for 50 years running.

New spatters, colors, textures, for cookware, bakeware, small electrics and exteriors too!

These new colors were inspired by nature.

Whitford has developed new colors, effects, and combinations of decorative ideas to help distinguish your product from the competition. You can even create a special effect to differentiate your product line and offer a unique selling point.

1. Whitford spatter coatings have the same overall performance of the coating system in solid colors.
2. The spatter effect can be used for both interiors and exteriors of your products.
3. You can even pad-print and/or silk screen for further product personalization.
4. Available in a variety of colors, many inspired by nature, some even mimic the look of granite, stones and gems.
5. All Whitford interior coatings, solvent- and waterborne, comply with the regulations of the USDA, FDA, JIS, Commission Regulation (EC) 1935/2004 as amended (for the EU), as well as many others.

*For more information on these and other Whitford coatings,
contact your local representative or find us on the web at: whitfordww.com.*
